Mango information kit
Reprint – information current in 1999

REPRINT INFORMATION – PLEASE READ!

For updated information please call 13 25 23 or visit the website www.dpi.qld.gov.au

This publication has been reprinted as a digital book without any changes to the content published in 1999. We advise readers to take particular note of the areas most likely to be out-of-date and so requiring further research:

• Chemical recommendations—check with an agronomist or Infopest www.infopest.qld.gov.au
• Financial information—costs and returns listed in this publication are out of date. Please contact an adviser or industry body to assist with identifying more current figures.
• Varieties—new varieties are likely to be available and some older varieties may no longer be recommended. Check with an agronomist, call the Business Information Centre on 13 25 23, visit our website www.dpi.qld.gov.au or contact the industry body.
• Contacts—many of the contact details may have changed and there could be several new contacts available. The industry organisation may be able to assist you to find the information or services you require.
• Organisation names—most government agencies referred to in this publication have had name changes. Contact the Business Information Centre on 13 25 23 or the industry organisation to find out the current name and contact details for these agencies.
• Additional information—many other sources of information are now available for each crop. Contact an agronomist, Business Information Centre on 13 25 23 or the industry organisation for other suggested reading.

Even with these limitations we believe this information kit provides important and valuable information for intending and existing growers.

This publication was last revised in 1999. The information is not current and the accuracy of the information cannot be guaranteed by the State of Queensland.

This information has been made available to assist users to identify issues involved in the production of mangoes. This information is not to be used or relied upon by users for any purpose which may expose the user or any other person to loss or damage. Users should conduct their own inquiries and rely on their own independent professional advice.

While every care has been taken in preparing this publication, the State of Queensland accepts no responsibility for decisions or actions taken as a result of any data, information, statement or advice, expressed or implied, contained in this publication.
Want more information? This section helps direct you to the other important providers and sources of mango information. The Contacts directory contains the names and contact details of people and organisations serving the mango industry. The References section contains a list of information that is useful reading for anyone involved in the industry.

Mango grower associations

Queensland associations
Queensland mango growers are represented on the Queensland Fruit & Vegetable Growers (QFVG) by the Other Fruits Sectional Group Committee (Mango Subcommittee). This enables growers to discuss and formulate industry policy. Growers can have input to the committee by joining a local growers’ association affiliated with QFVG. Most local grower organisations are listed here.

The addresses and meeting times of local producer associations and the names of district delegates are also available through:

Queensland Fruit & Vegetable Growers
PO Box 19
BRISBANE MARKET QLD 4106
Ph: (07) 3213 2444; Fax: (07) 3213 2480
E-mail: qfvg@qfvg.org.au
Web: www.qfvg.org.au

The freecall Growers’ Access Line numbers are:
Ph: 1800 654 222; Fax: 1800 650 196

There is only one specialist mango growers’ association in Queensland but several local producer organisations have special interest mango groups. These associations provide a range of services to their members including field days, farm walks and technical meetings. Here are contacts for some of the main associations.

Mareeba District Fruit & Vegetable Growers’ Association
The Secretary
PO Box 989
MAREEBA QLD 4880
Fax: (07) 4092 6099
E-mail: mdfvga@fastinternet.net.au

Burdekin & District Mango Growers’ Association
The Secretary
PO Box 2094
AYR QLD 4807
Ph: (07) 4783 1915/4782 9482; Fax: (07) 4784 4013

Bowen District Growers Association
Lyn Orton, Secretary
PO Box 489
BOWEN QLD 4805
Ph: (07) 4785 2860; Fax: (07) 4785 2211
E-mail: bdga@tpi.com.au

IMPORTANT
Join your local growers’ association to learn more about your industry and how you can become more involved in its development.
Yeppoon Tree Crop Growers Subcommittee
c/- Yeppoon District Cooperative, Ben Street

Interstate associations
Northern Territory Horticultural Association
Ian Baker, Executive Officer
PO Box 2207
PALMERSTON NT 0831
Ph: (08) 8983 3233; Fax: (08) 8983 3244

Organic grower associations
Note: These organisations do not have the resources to provide a general advisory service about organic fruit production. Their main function is to provide information about certification standards and processes. Special services are also provided to members after joining. Kits containing information on membership and certification standards and processes are available for purchase.

Biological Farmers of Australia (BFA)
PO Box 3404
TOOWOOMBA VILLAGE FAIR QLD 4350

Fax: (03) 9384 1322

Bio-Dynamic Agricultural Association of Australia  
c/- Post Office  
POWELLTOWN VIC 3797  
Ph: (03) 5966 7333; Fax: (03) 5966 7433

Tree nurseries
There are several suppliers of mango trees in all mango growing areas. Growers should check the classified advertisements in the Fruit and Vegetable News or in their local papers for suppliers of mango tree seedlings. As there is no nursery accreditation scheme for mango tree suppliers, ensure that the trees are free of disease. Serious diseases such as bacterial black spot can be introduced into an orchard through diseased nursery stock. Some of the nurseries that stock a range of mango varieties are listed here.

Birdwood Nursery  
Blackall Range Road  
WOOMBYE QLD 4559  
Ph: (07) 5442 1611; Fax: (07) 5442 1053; Mobile: 0408 715 994  
E-mail: birdwood@pegasus.com.au

Market information

Ausmarket Consultants
The Ausmarket Consultants group offers historic and current fruit and vegetable market price information, market intelligence, outturn reporting and product assessment. Participants in the network operate separate businesses within Australia's major markets. The Ausmarket Consultants name covers activities where two or more of the group members combine resources to provide services that extend beyond their individual areas of operation.

Contact details are given here and on their Website:
www.users.bigpond.com/ausmarket

If you visit this home page you will also find a mango price report sponsored by Amcor Fibre Packaging.

Individual members of the network are:

Consumer Affairs Queensland
Consumer Affairs officers manage the Trade Measurement Act 1990, and can provide current information on marking packages and the requirements for ensuring correct weight in all packages. You can locate your nearest office or obtain information by contacting them on: Ph: (07) 3836 0411; Fax: (07) 3836 0424

Office of Fair Trading
Packers can avoid fines under the Trade Measurement Act 1990 by ensuring correct weight and labelling whenever packing fruit and vegetables for sale. Ring the trade measurement section on (07) 3836 0411 for guidelines for the packing of fruit and vegetables.

Land vegetation management officers
Land vegetation management officers are available for expert assistance with vegetation and tree management; including the retention and management of remnant vegetation, vegetation management planning, tree use on farms including windbreak design and species selection, clearing, non-industrial farm forestry and forest enrichment. Your local office of the Department of Natural Resources (DNR) can put you in contact with your nearest land vegetation management officer, where available.
Land conservation extension officers

Land conservation extension officers are available in some districts to provide expert assistance in planning farm layouts and providing advice on land management. Your local office of the Department of Natural Resources (DNR) can put you in contact with your nearest land conservation officer, where available.

Farm financial counselling service

In Queensland, DPI provides business advisory services to producers who are in difficulty from continuing environmental and economic pressures. Trained counsellors can help in the analysis of financial situations and the development of business plans. Your local DPI office or the DPI Call Centre, telephone 13 25 23, can put you in touch with your nearest financial counsellor.

Water extension advice

Department of Natural Resources (DNR) officers can provide advice on most aspects of water use on farms including dam construction and maintenance, stream licensing, bore development, irrigation selection, water quality and farm drainage problems. Your local office of the Department of Natural Resources can put you in contact with the nearest office where this advice is available.

Library and literature search services

DPI Central Library in Brisbane provides several special information services that may be of interest to growers. These include:

- access to the library’s extensive book and journal collection;
- on-line public access catalogue (OPAC) terminals which provide access to the DPI library catalogue and to material held in the State Library of Queensland;
- literature searches (fee charged) from CD-ROM databases for a comprehensive range of subjects.

General enquiries can be directed to:

Ph: (07) 3239 3126; Fax: (07) 3239 3128

Other information sources

DPI Call Centre. To help you access DPI’s information services and products, ring the DPI Call Centre 13 25 23 from 8 a.m. to 8 p.m. Monday to Friday, excluding public holidays, for the cost of a local call. Callers outside Queensland can ring (07) 3404 6999.

Farmfax is a DPI information service designed to allow quick access to new and frequently changing information on a range of topics. It provides information 24 hours a day, seven days a week for the cost of a phone call. Information can be either faxed back within minutes or mailed out the next day. You can ring the Farmfax number to receive an index, from which you can select the items you require. Faxed items are charged on your phone bill at $2.50 or $5.00 depending on the
length of the article. There is no charge to receive the document list. The Farmfax number is 1902 220 042.

**AgrilInfonet** is a DPI marketing information access service aimed at assisting small to medium agricultural enterprises search for new business opportunities in export markets. Information on the range of services can be obtained from:

**AgrilInfonet Project Leader**  
Rural Market Development  
GPO Box 46  
BRISBANE QLD 4001  
Ph: (07) 3239 3307; Fax: (07) 3221 3896

## Quality management training and information

### Approved supplier programs

The publication *Developing an approved supplier program for fresh produce—a guide for customers and suppliers* is available from Ms J. Barker, DPI, 80 Meiers Rd, Indooroopilly, QLD 4068.

Training workshops on implementing an Approved Supplier Program are conducted from time to time. For further information contact one of the following officers from the DPI Queensland Horticulture Institute:
