REPRINT INFORMATION – PLEASE READ!

For updated information please call 13 25 23 or visit the website www.dpi.qld.gov.au

This publication has been reprinted as a digital book without any changes to the content published in 1997. We advise readers to take particular note of the areas most likely to be out-of-date and so requiring further research:

- Chemical recommendations—check with an agronomist or Infopest www.infopest.qld.gov.au
- Financial information—costs and returns listed in this publication are out of date. Please contact an adviser or industry body to assist with identifying more current figures.
- Varieties—new varieties are likely to be available and some older varieties may no longer be recommended. Check with an agronomist, call the Business Information Centre on 13 25 23, visit our website www.dpi.qld.gov.au or contact the industry body.
- Contacts—many of the contact details may have changed and there could be several new contacts available. The industry organisation may be able to assist you to find the information or services you require.
- Organisation names—most government agencies referred to in this publication have had name changes. Contact the Business Information Centre on 13 25 23 or the industry organisation to find out the current name and contact details for these agencies.
- Additional information—many other sources of information are now available for each crop. Contact an agronomist, Business Information Centre on 13 25 23 or the industry organisation for other suggested reading.

Even with these limitations we believe this information kit provides important and valuable information for intending and existing growers.

This publication was last revised in 1997. The information is not current and the accuracy of the information cannot be guaranteed by the State of Queensland.

This information has been made available to assist users to identify issues involved in the production of citrus. This information is not to be used or relied upon by users for any purpose which may expose the user or any other person to loss or damage. Users should conduct their own inquiries and rely on their own independent professional advice.

While every care has been taken in preparing this publication, the State of Queensland accepts no responsibility for decisions or actions taken as a result of any data, information, statement or advice, expressed or implied, contained in this publication.
Want more information? This section helps to direct you to the other important providers and sources of citrus information. The ‘Contacts’ directory contains details of industry organisations, special product suppliers, consultants and technical information services. The ‘References’ section contains a list of information that is useful reading for anyone involved in the citrus industry.

Contents

Contacts
Grower associations, special product suppliers, consultants and technical information services

Citrus grower associations

There are no specific citrus grower associations in Queensland but a number of local producer associations (LPAs) affiliated with Queensland Fruit and Vegetable Growers (QFVG) address citrus issues at the local level. These LPAs then interact on citrus issues with the Citrus Sectional Group Committee of QFVG which is represented by delegates elected by citrus growers from all major citrus growing areas of Queensland. The Citrus Sectional Group Committee meets quarterly in Brisbane. Growers wishing to enquire about citrus issues should first contact the Chairperson of their local LPA.

The address and meeting times of local associations and district delegates to the Citrus Sectional Group Committee are available through:

Queensland Fruit and Vegetable Growers
PO Box 19
BRISBANE MARKET Q 4106
Ph: (07) 3213 2444; Fax: (07) 3213 2438

The Growers’ Access Line numbers are:
Ph: 1800 654 222; Fax: 1800 650 196

Minutes of meetings of the Citrus Sectional Group Committee are published through the Queensland Fruit and Vegetable News.

Australian Citrus Growers Inc (ACG) is the voice of the Australian citrus industry. Queensland is a member through the Citrus Sectional Group Committee and has two votes. Contact details of the ACG are:

Australian Citrus Growers Inc
Room 107, 10th Floor
118 King William Street
ADELAIDE SA 5000
Ph: (08) 8212 4245; Fax: (08) 8231 3413

The citrus industry has set up a number of industry reference and discussion groups known as Cittgroups. To obtain details of your nearest Cittgroup, contact the Queensland Cittgroup Coordinator:

John Owen-Turner
PO Box 21
BURRUM HEADS Q 4659
Ph: (071) 295 217; Fax: (071) 295 511; Mobile 019 629 360

A useful grower association for citrus growers in northern New South Wales is:

NSW North Coast Citrus Growers Association
Mrs S Braz (Secretary)
Johnstons Road
NEWRYBAR NSW 2479
Ph: (066) 871 540; Fax: (066) 871 308
Organic grower associations

Note: These organisations do not have the resources to provide a general advisory service about organic citrus production. Their main function is to provide information about certification standards and processes. Special services are also provided to members after joining. Kits containing information on membership and certification standards and processes are available for purchase.

Biological Farmers of Australia

Special technical information sources

Australian Horticultural Corporation (AHC)
Level 14
100 William Street
SYDNEY NSW 2011
Ph: (02) 9357 7000; Fax: (02) 9356 3661

AHC provides a range of products and services including training, advice and consultancy on quality management, industry statistics, market access information, Best Practice Groups Report, and publications on production, quality assurance and marketing.

Horticultural Research and Development (HRDC)
Level 6
7 Merriwa Street
GORDON NSW 2072
Ph: (02) 9418 2200 Fax: (02) 9418 1352

HRDC, through managing the strategic research and development program for the Australian citrus industry, provides a range of information products including the R&D plan for the citrus industry, a list of current projects, final reports on projects and an annual research report.

Queensland Government technical services

Citrus technical enquiries (commercial growers only)

Contact the DPI Gayndah office
GAYNDAH Q 4625
Ph: (071) 611 116; Fax: (071) 611 397

Papaya fruit fly freecall hotline

1800 650 268 (8 to 5 weekdays)

Forestry extension officers

Forestry extension officers are available for expert assistance with tree use on farms including windbreak design and species selection, clearing, timber production and forest enrichment. Your local office of Department of Natural Resources can put you in contact with your nearest forestry extension officer.
Land conservation extension officers

Land conservation extension officers are available to provide expert assistance in planning farm layouts and providing advice on land management. Your local office of Department of Natural Resources can put you in contact with your nearest land conservation officer.

Water resources extension officers

Water resources advisory officers are available for expert assistance on all aspects of water use on farms including dam construction and maintenance, stream licensing, bore development, irrigation selection and design and water quality. They also provide advice on farm drainage problems. Your local office of Department of Natural Resources can put you in contact with your nearest water officer.

Farm financial counselling service

DPI provides business advisory services to producers who are in difficulty from continuing environmental and economic pressures. Trained counsellors can help in the analysis of financial situations and the development of business plans. Your local office of DPI can put you in touch with your nearest financial counsellor.

Library and literature search services

DPI Central Library in Brisbane provides a number of special information services that may be of interest to growers. These include:

- access to the library’s extensive book and journal collection
- on-line public access catalogue (OPAC) terminals provide access to the DPI library catalogue and to material held in the State Library of Queensland
- literature searches from CD-ROM (fee charged).

Enquiries can be directed to:

Ph: (07) 3239 3126; Fax: (07) 3239 3128 or to
Robin Galagher Ph: (07) 3239 3124 or
Pat Abbott: Ph: (07) 3239 3131

Other information sources

Farmfax is a new information service designed to allow quick access to new and frequently changing information on a range of topics. It provides information 24 hours a day, seven days a week for the cost of a phone call. Information can be either faxed back within minutes or mailed out the next day. A regular item of particular interest is Item 363—Mandarin monthly export brief.

You can ring the Farmfax number to receive an index, from which you can select the items you require.

Farmfax Ph: (07) 3222 2966
**AgrilInfonet** is a DPI marketing information access service aimed at assisting small to medium agricultural enterprises in searching for new business opportunities in export markets. Information on the range of services available can be obtained from:

The AgrilInfonet Project Manager  
GPO Box 46  
**BRISBANE Q 4001**  
Ph: (07) 3239 3312; Fax: (07) 3239 6292

The **DPI Call Centre** provides ‘on-the-spot’ help for inquiries about DPI information services and products, and can help you reach the right contact. The Call Centre operates from Monday to Friday, 8 a.m. to 8 p.m. You can access this service from anywhere in Queensland for the cost of a local call.

DPI Call Centre Ph: 13 25 23

**Agricultural booksellers**

Booksellers who specialise in agricultural books are:

- **Agmedia**  
  PO Box 258  
  **EAST MELBOURNE VIC  3002**  
  Ph: 1800 800 755; Fax: (03) 9651 7009

- **D & A Books and Journals**  
  648 Whitehorse Road  
  **MITCHAM VIC  3132**  
  Ph: (03) 9210 7777; Fax: (03) 9210 7788

- **Johima Books**  
  PO Box 4048  
  **PARRAMATTA NSW  2124**  
  Ph: (02) 9687 1922; Fax: (02) 9687 1027

- **Morescope Publishing**  
  638A Burwood Road  
  **HAWTHORN EAST  VIC  3123**  
  Ph: (03) 9882 9922; Fax: (03) 9882 9239

**Contacts through the yellow pages**

The following headings cover the main topics for which contacts may be needed. Check the listings in the yellow pages under the appropriate heading. If you are looking for other products and services, the following Yellow Pages headings may be useful:
**Chemicals/fertilisers**
- Chemicals, agricultural
- Fertilisers
- Insecticides, herbicides and fungicides
- Lime

**Chemical Suppliers**
- Soil conditioners and treatments

**Consultants**
- Farm and agricultural advisory services
- Horticultural consultants

**Economics and marketing**
- Fruit and vegetable wholesalers
- Grain and Produce
- Transport services

**Equipment, irrigation, machinery**
- Farm equipment and supplies
- Agricultural machinery
- Engineers
- Irrigation
- Instruments—scientific

**Manufacturers of harvesting and/or grading machinery**
- Agricultural machinery
- Engineers, general
- Engineers, manufacturing
- Farm equipment and supplies
- Carriers

**Pesticides and spraying**
- Aerial spraying
- Protective clothing
- Fertiliser and/or insecticide spreading
- Spray equipment and/or supplies

**Post harvest handling and packaging**
- Fruit and vegetable packing
- Cool room builders/designers
- Cool stores
- Refrigerated transport trucks and equipment
- Food processing and/or packing machinery
- Grain and produce packaging materials
References

Note: This is not an exhaustive list of references for citrus. It consists of references that the authors recommend as important sources of information and reading for the citrus grower. If you require more detailed information on a subject, use the literature search facilities available from most libraries.

- A citrus handling guide (1989) Number E/32/89

Useful items from HRDC

- Gibberellic acid spray (1996) Fact Sheet No. 1/96
- National citrus field day books
- Irrigation scheduling for fruit growers (1995)
- Gaining new markets for citrus (1996) Fact Sheet No. 2/96
Propagation

Australian Citrus Improvement Association listing of new varieties is available through:

Australian Citrus Propagation Association Incorporated
15 Bowen Crescent
WEST GOSFORD NSW 2250
Ph: (043) 250 247; Fax: (043) 242 563

Pests

Papaya fruit fly fact sheets
Available from:

Papaya Fruit Fly Task Force
Freecall hotline 1800 650 268

HRDC citrus reports

Available from:

Horticultural Research and Development Corporation
7 Merriwa Street
GORDON NSW 2072
Ph: (02) 9418 2200; Fax: (02) 9418 1342

A full listing of reports may be obtained from HRDC. Here are some of the more popular and relevant ones.

- Integrated control of spined citrus bug in inland citrus (CT002)
- Management strategies for high density citrus (CT003)
- Life tables and mortality factors of white louse scale in South East Queensland (CT010)
- Biology and control of Empoasca sp. in Queensland citrus (CT024)
- Pruning, tree skirting and tree trunk banding to improve quality of export citrus (CT025)
- Fresh citrus market development through consumer evaluation and selection of new cultivars (CT026)
- Biological control of citrus leafminer (CT031)
- Investigation into rind damage to citrus fruit caused by rind oil release and chilling injury (CT106) (CT124)
- Evaluation of new navel cultivars to extend the marketing season (CT112)
- Development and implementation of an integrated management strategy for spined citrus bug (CT125)
- Integrated control of honeydew producing insects and ants on citrus (CT236)
- Biological control of citrus nematode (CT316)
• Queensland fruit fly eradication (CT336)
• Upgrading of quality assurance system for Gayndah Packers Cooperative Ltd to gain AHQCS certification (CT441)
• Improving the effectiveness of manual harvesting of oranges (CT520)
• Control of spined citrus bug on lemons (CT804)
