

Custard apple information kit

Reprint – information current in 1998

REPRINT INFORMATION – PLEASE READ!

For updated information please call 13 25 23 or visit the website www.deedi.qld.gov.au

This publication has been reprinted as a digital book without any changes to the content published in 1998. We advise readers to take particular note of the areas most likely to be out-of-date and so requiring further research:

- Chemical recommendations—check with an agronomist or Infopest www.infopest.qld.gov.au
- Financial information—costs and returns listed in this publication are out of date. Please contact an adviser or industry body to assist with identifying more current figures.
- Varieties—new varieties are likely to be available and some older varieties may no longer be recommended. Check with an agronomist, call the Business Information Centre on 13 25 23, visit our website www.deedi.qld.gov.au or contact the industry body.
- Contacts—many of the contact details may have changed and there could be several new contacts available. The industry organisation may be able to assist you to find the information or services you require.
- Organisation names—most government agencies referred to in this publication have had name changes. Contact the Business Information Centre on 13 25 23 or the industry organisation to find out the current name and contact details for these agencies.
- Additional information—many other sources of information are now available for each crop. Contact an agronomist, Business Information Centre on 13 25 23 or the industry organisation for other suggested reading.

Even with these limitations we believe this information kit provides important and valuable information for intending and existing growers.

This publication was last revised in 1998. The information is not current and the accuracy of the information cannot be guaranteed by the State of Queensland.

This information has been made available to assist users to identify issues involved in custard apple production. This information is not to be used or relied upon by users for any purpose which may expose the user or any other person to loss or damage. Users should conduct their own inquiries and rely on their own independent professional advice.

While every care has been taken in preparing this publication, the State of Queensland accepts no responsibility for decisions or actions taken as a result of any data, information, statement or advice, expressed or implied, contained in this publication.

Queensland Government

Contacts & **REFERENCES**

Want more information? This section helps direct you to the other important providers and sources of custard apple information. The Contacts directory contains the names and contact details of people and organisations serving the custard apple industry. The References section contains a list of information that is useful reading for anyone involved in the industry.

Custard apple grower associations

The Australian Custard Apple Growers' Association Inc. is the specialist grower organisation that services custard apple growers throughout Australia. This organisation is the peak industry body for custard apples, providing industry representation on national issues, organising levy collection and providing a range of services including a national newsletter and a marketing organisation. The secretariat for the Association is:

The Australian Custard Apple Growers' Association Inc.

Patti Stacey (Assistant Secretary/Treasurer)

145 Victoria Park Road

ALSTONVILLE NSW 2477

Ph: (02) 6629 5333; Fax: (02) 6629 5422

Phone ACAGA for details of your regional delegate.

Other grower organisations that provide services to custard apple growers are:

Sunshine Coast Sub Tropical Fruits' Association Inc.

Custard Apple Group

John Madden (Group Convenor)

PO Box 24

PALMWOODS QLD 4555

Ph/Fax: (07) 5445 0926

Bundaberg & District Orchardists' Association

c/o Bundaberg Fruit & Vegetable Growers

PO Box 45

BUNDABERG QLD 4670

Ph: (07) 4153 3007; Fax: (07) 4153 1322

In Queensland, custard apple growers are represented on the Queensland Fruit & Vegetable Growers (QFVG) through the Other Fruits Sectional Group Committee. Details can be obtained from:

Queensland Fruit & Vegetable Growers

PO Box 19

BRISBANE MARKET QLD 4106

Ph: (07) 3213 2444; Fax: (07) 3213 2480

The Growers' Access Line numbers are:

Ph: 1800 654 222; Fax: 1800 650 196

e-mail: qfvg@qfvg.org.au

Web: www.qfvg.org.au

Organic grower associations

Note: These organisations do not have the resources to provide a general advisory service about organic fruit production. Their main function is to provide information about certification standards and processes. Special services are also provided to members after joining.

Kits containing information on membership and certification standards and processes are available for purchase.

Inspections for interstate produce shipments

Contact the nearest horticultural office of DPI or NSW Agriculture for the names of local inspectors. To find your nearest horticultural DPI office in Queensland, phone the DPI Call Centre on 13 25 23 between 8 a.m. and 8 p.m. Monday to Friday, excluding public holidays, for the cost of a local call.

Special officers have been appointed within DPI to manage the implementation of Interstate Certification Assurance (ICA) arrangements including the ICA-18 for custard apples. Contact your local DPI office or the DPI Call Centre to obtain the name of your nearest ICA officer.

Market information

Ausmarket Consultants

The Ausmarket Consultants group offers historic and current fruit and vegetable market price information, market intelligence, outturn reporting and product assessment. Participants in the network operate separate businesses within Australia's major markets. The Ausmarket Consultants name covers activities where two or more of the group members combine resources to provide services that extend beyond their individual areas of operation. Contact details can be found on their Website:

www.users.bigpond.com/Ausmarket

Individual members of the network are:

Forestry extension officers

Forestry extension officers are available for expert assistance with tree use on farms including windbreak design and species selection, clearing, timber production and forest enrichment. Your local office of the Department of Natural Resources (Queensland) and Department of Land and Water Conservation (New South Wales) can put you in contact with your nearest forestry extension officer.

Land conservation extension officers

Land conservation extension officers are available to provide expert assistance in planning farm layouts and providing advice on land management. Your local office of the Department of Natural Resources (Queensland) and Department of Land and Water Conservation (New South Wales) can put you in contact with your nearest land conservation officer.

Water extension officers

Water advisory officers are available for expert assistance on all aspects of water use on farms including dam construction and maintenance, stream licensing, bore development, irrigation selection and design and water quality. They also provide advice on farm drainage problems. Your local office of the Department of Natural Resources

(Queensland) and Department of Land and Water Conservation (New South Wales) can put you in contact with your nearest water officer. In New South Wales, enquiries on irrigation design should be directed to irrigation officers of NSW Agriculture.

Farm financial counselling service

DPI (Queensland) and the Rural Assistance Authority (New South Wales) provide business advisory services to producers who are in difficulty from continuing environmental and economic pressures. Trained counsellors can help in the analysis of financial situations and the development of business plans. Your local office or NSW Agriculture can put you in touch with your nearest financial counsellor.

Library and literature search services

DPI's Central Library in Brisbane and NSW Agriculture's library at Wollongbar provide a range of special information services that may be of interest to growers. These include:

- access to the library's extensive book and journal collection;
- on-line public access catalogue (OPAC) terminals that provide access to the DPI library catalogue and to material held in the State Library of Queensland (Brisbane only);
- literature searches from CD-ROM and the Internet (fee charged).

General enquiries can be directed to:

Brisbane: Ph: (07) 3239 3126; Fax: (07) 3239 3128

Wollongbar, NSW Ph: (02) 6626 1321

Other information sources

Farmfax is a new DPI information service designed to allow quick access to new and frequently changing information on a range of topics. It provides information 24 hours a day, seven days a week for the cost of a phone call. Information can be either faxed back within minutes or mailed out the next day. You can ring the Farmfax number, 1902 220 042, to receive an index from which you can select the items you require. Charges of \$2.50 or \$5 per article apply, depending on the information sought.

AgriInfonet is a DPI marketing information access service aimed at assisting small to medium agricultural enterprises search for new business opportunities in export markets. Information on the range of services available can be obtained from:

The AgriInfonet Project Leader

Rural Market Development

GPO Box 46

BRISBANE QLD 4001

Ph: (07) 3239 3307; Fax: (07) 3221 3896

The DPI Call Centre helps you access DPI's information products and services. Ring the Call Centre on 13 25 23 from 8 a.m. to 8 p.m.

Monday to Friday (excluding public holidays), for the cost of a local call. You can access this service from anywhere in Queensland.

Contacts through the Yellow Pages

The following Yellow Pages headings cover the main topics for which contacts may be needed. Check the listings under the appropriate heading.

Chemicals/fertilisers

Chemicals, agricultural
Chemical suppliers
Fertilisers
Insecticides, herbicides and fungicides
Lime
Soil conditioners and treatments

Consultants

Farm and agricultural advisory services
Horticultural consultants

Economics and marketing

Fruit and vegetable wholesalers
Grain and produce
Transport services

Equipment, irrigation, machinery

Agricultural machinery
Engineers
Farm equipment and supplies
Instruments — scientific
Irrigation
Manufacturers of harvesting and/or grading machinery
Agricultural machinery
Carriers
Engineers, general
Engineers, manufacturing
Farm equipment and supplies

Pesticides and spraying

Aerial spraying
Fertiliser and/or insecticide spreading
Protective clothing
Spray equipment and/or supplies

Postharvest handling and packaging

Cold room builders/designers
Cold stores
Food processing and/or packing machinery
Fruit and vegetable packing
Grain and produce packaging materials
Refrigerated transport trucks and equipment

References

Note: This is not an exhaustive list of references for custard apple. It consists of references that the authors recommend as important sources of information and reading for the custard apple grower. If you require more detailed information on a subject, use the literature search facilities available from most libraries.

DPI and NSW Agriculture information products

Custard apple books and booklets

Custard apples—cultivation and crop protection, Sanewski, G. (1991), Department of Primary Industries, Brisbane.

Quality assurance manual, Australian Custard Apple Growers Association (1993). Available only to members of the Australian Custard Apple Growers' Association.

Other books relevant to custard apples

Diseases of fruit crops, Persley, D.M. (ed) (1993), Department of Primary Industries, Brisbane.

Insect pests of fruit and vegetables, Swaine, G., Ironside, D.A. & Corcoran, R.J. (eds) (1983), Department of Primary Industries, Brisbane.

Managing insects and mites in horticultural crops, Brough, E.J., Elder, R.J. & Beavis, C.H.S. (eds) (1994), Department of Primary Industries, Brisbane.

Pesticide application manual (2nd edn), Banks, A. Broadley, R.H., Collinge, M. & Middleton, K. (1990), Department of Primary Industries, Brisbane.

Fruit and nut crops—a disease management guide, Persley, D.M., Pegg, K.G. & Syme, J.R. (eds) (1989), Department of Primary Industries, Brisbane.

Water it right—irrigation using tensiometers, Daniels, J.L., Banks, A.G. & Jamieson, G.I. (1994), Department of Primary Industries, Brisbane.

Forced air cooling (2nd ed), Watkins, J.B. & Ledger, S.N. (1990), Department of Primary Industries, Brisbane.

Developing an approved supplier program for fresh produce—a guide for customers and suppliers, National Quality Management Working Group (1999), Department of Primary Industries, Brisbane and HRDC.

Buying the farm for horticulture—site it right (1986), Department of Primary Industries, Brisbane.

Horticulture: trade and investment, a marketing perspective, Reid, S.R.M., Pullar, S.J. & Rutherford A.D. (1995), Department of Primary Industries, Brisbane.

Soil sense—soil management for NSW North Coast farmers, Lines Kelly, R. (1994), NSW Agriculture, Wollongbar.

Insect pests of fruit and vegetables in New South Wales, Hely, P.C., Pasfield, G. & Galletly, J.G. (1982), NSW Agriculture, Orange.

Videos relevant to custard apples

Buying the farm for horticulture—site it right (1986), Department of Primary Industries, Brisbane.

CD and software packages relevant to custard apples

Prime notes on CD-ROM—Version 7.2 (1997), Department of Primary Industries, Brisbane.

Infopest—pest management information system (CD) (1997), Department of Primary Industries, Brisbane.

Australian Rainman 2.2 (decision support computer package), Department of Primary Industries, Brisbane.

Useful NSW Agriculture Agfacts on custard apples

- Adaptation of custard apple, lychee and mango to areas south of Grafton (1/048)
- Ant barriers for scale control in custard apples (1/053)
- Fertilising custard apples (H6.3.2)
- Custard apples: cultural and financial aspects (H6.3.9)

Information products from other sources

Books on general custard apple culture and issues

Australian horticulture, Coombs, B. (ed) (1995), Morescope Publishing Pty Ltd, Victoria.

Micro-irrigation of vines and fruit trees, Mitchell, P.D. & Goodwin, I. (1996), Agmedia, Melbourne.

Growing fruit in Australia for profit or pleasure (5th edn), Baxter, P. (1997), Macmillan, Sydney.

Books on diseases, pests and disorders

Plant nutrient disorders—tropical fruit and nut crops, Weir, R.G. & Cresswell, G.C. (1995), Inkata Press, Melbourne.

Tropical fruit: postharvest diseases of horticultural crops (1995), Department of Primary Industries, Brisbane.

The good bug book, Broadley, R.H. & Thomas, M.J. (1996), Australian Biological Control Association, Sydney.

Books on organic growing

Organic agriculture—getting started, Madge, D. (1995), Agmedia, Melbourne.

Profitable organic farming, Newton, J. (1995), Blackwell Science, Melbourne.

Natural farming Australia, Bock, L. (ed) (1995) Cyanco Pty Ltd, Eumundi.

Organic farming, Burlace, M. (1995), NSW Agriculture, Orange.
