Onion information kit
Reprint – information current in 1997

REPRINT INFORMATION – PLEASE READ!

For updated information please call 13 25 23 or visit the website www.deedi.qld.gov.au

This publication has been reprinted as a digital book without any changes to the content published in 1997. We advise readers to take particular note of the areas most likely to be out-of-date and so requiring further research:

• Chemical recommendations—check with an agronomist or Infopest www.infopest.qld.gov.au
• Financial information—costs and returns listed in this publication are out of date. Please contact an adviser or industry body to assist with identifying more current figures.
• Varieties—new varieties are likely to be available and some older varieties may no longer be recommended. Check with an agronomist, call the Business Information Centre on 13 25 23, visit our website www.deedi.qld.gov.au or contact the industry body.
• Contacts—many of the contact details may have changed and there could be several new contacts available. The industry organisation may be able to assist you to find the information or services you require.
• Organisation names—most government agencies referred to in this publication have had name changes. Contact the Business Information Centre on 13 25 23 or the industry organisation to find out the current name and contact details for these agencies.
• Additional information—many other sources of information are now available for each crop. Contact an agronomist, Business Information Centre on 13 25 23 or the industry organisation for other suggested reading.

Even with these limitations we believe this information kit provides important and valuable information for intending and existing growers.

This publication was last revised in 1997. The information is not current and the accuracy of the information cannot be guaranteed by the State of Queensland.

This information has been made available to assist users to identify issues involved in onion production. This information is not to be used or relied upon by users for any purpose which may expose the user or any other person to loss or damage. Users should conduct their own inquiries and rely on their own independent professional advice.

While every care has been taken in preparing this publication, the State of Queensland accepts no responsibility for decisions or actions taken as a result of any data, information, statement or advice, expressed or implied, contained in this publication.
Want more information? This section helps to direct you to other important providers and sources of onion industry information. The Contacts directory contains the names and contact details of people and organisations serving the onion industry. The References section contains a list of information that is useful reading for anyone involved in the industry.

Contents

Contacts
Grower associations, special product suppliers, consultants and technical information services

Grower associations

Queensland associations

The interests of the onion industry in Queensland are represented by the Heavy Vegetable Committee of the Queensland Fruit and Vegetable Growers (QFVG). This committee gives heavy produce growers (onions and others) a separate identity and enables them to discuss and formulate industry policy.
Intending onion growers should join their local growers association. The address and meeting times of local associations and district delegates are available through:

Queensland Fruit and Vegetable Growers
PO Box 19
BRISBANE MARKET Q 4106
Ph: (07) 3213 2444; Fax: (07) 3213 2438

Ph: (08) 8531 1577; Fax: (08) 8532 1789

**Organic grower associations**

Note: These organisations do not have the resources to provide a general advisory service about organic production. Their main function is to provide information about certification standards and processes. Special services are provided to members after joining. Kits containing information on membership and certification standards and processes are available for purchase.

Forestry extension officers
Forestry extension officers are available for expert assistance with tree use on farms. This includes windbreak design and species selection, clearing, timber production and forest enrichment. The local DPI office can put you in contact with your nearest forestry officers.

Land conservation extension officers
Land conservation extension officers are available to provide expert assistance in planning farm layouts and providing advice on land management. The local Department of Natural Resources office can put you in contact with your nearest land conservation officers.
Water resources extension officers

Water resources advisory officers are available for expert assistance on all aspects of water use on farms. This includes dam construction and maintenance, stream licensing, bore development, irrigation selection and design and water quality. They also provide advice on farm drainage problems. The local Department of Natural Resources office can put you in contact with your nearest water officers.

Library and literature search services

DPI Central Library in Brisbane provides several special information services that may be of interest to growers. These include:

- Access to the library’s extensive book and journal collection.
- On-line public access catalogue (OPAC) terminals that provide access to the DPI library catalogue and to material held in the State Library of Queensland.
- Literature searches (fee charged) from CD-ROM databases for a comprehensive range of subjects.

General enquiries can be directed to:
Ph: (07) 3239 3126; Fax: (07) 3239 3128

Or to the following library staff:
Robin Galagher Ph: (07) 3239 3124
Pat Abbott Ph: (07) 3239 3131

Other information sources

Farmfax is a new DPI information service designed to allow quick access to new and frequently changing information on a range of topics. It provides information 24 hours a day, seven days a week for the cost of a phone call. Information can either be faxed back within minutes or mailed out the next day. You can ring the Farmfax number to receive an index, from which you can select the items you require.

The Farmfax telephone number (07) 3222 2966.

AgriInfonet is a DPI marketing information access service aimed at assisting small to medium agricultural enterprises search for new business opportunities in export markets. Information on the range of services can be obtained from:

AgriInfonet Project Manager
GPO Box 46
BRISBANE  Q 4001
Ph: (07) 3239 3312; Fax: (07) 3239 6292
### Agricultural booksellers

These booksellers specialise in agricultural books.

**Agmedia**  
PO Box 258  
EAST MELBOURNE VIC 3002  
Ph: 1800 80 0755; Fax: (03) 9651 7009

**D & A Books and Journals**  
648 Whitehorse Road  
MITCHUM VIC 3132  
Ph: (03) 9210 7777; Fax: (03) 9210 7788

**Johima Books**  
PO Box 4048  
PARRAMATTA NSW 2124  
Phone: (02) 9687 1922; Fax: (02) 9687 1027

**Morescope Publishing**  
638A Burwood Road  
HAWTHORN EAST VIC 3123  
Phone: (03) 9882 9922; Fax: (03) 9882 9239

### Contacts through the Yellow Pages

The following headings cover the main topics for which contacts may be needed. Check the listings in the Yellow Pages under the appropriate heading. If looking for other providers of products and services, the following Yellow Pages headings may be useful.

#### Chemicals/fertilisers

- Chemicals, agricultural  
- Fertilisers  
- Insecticides, herbicides and fungicides  
- Lime  
- Chemical suppliers  
- Soil conditioners and treatments

#### Consultants

- Farm and agricultural advisory services  
- Horticultural consultants

#### Economics and marketing

- Fruit and vegetable wholesalers  
- Grain and produce  
- Transport services
Equipment, irrigation, machinery

- Farm equipment and supplies
- Agricultural machinery
- Engineers
- Irrigation
- Instruments, scientific

Manufacturers of harvesting or grading machinery

- Agricultural machinery
- Engineers, general
- Engineers, manufacturing
- Farm equipment and supplies
- Carriers

Pesticides and spraying

- Aerial spraying
- Protective clothing
- Fertiliser or insecticide spreading
- Spray equipment or supplies

Postharvest handling and packaging

- Fruit and vegetable packing
- Cool room builders/designers
- Cool stores
- Refrigerated transport trucks and equipment
- Food processing or packing machinery
- Grain and produce packaging materials
References

This is not an exhaustive list of references for onions. It consists of references which the authors recommend as important sources of information and reading for the onion grower. If you require more detailed information on a subject, use the literature search facilities available from most libraries.
